

IBM Deployment

The screenshot displays the IBM Bluemix console interface for an application named 'mongoapp1'. The top navigation bar includes links for DASHBOARD, SOLUTIONS, CATALOG, PRICING, DOCS, and COMMUNITY. The left sidebar shows the application's overview, including SDK for Node.js, Files and Logs, Environment Variables, and Start Coding. The main content area shows the application's configuration: INSTANCES: 1, MEMORY QUOTA: 256 MB, and AVAILABLE MEMORY: 1.500 GB. There are buttons for ADD A SERVICE OR API, BIND A SERVICE OR API, and ENABLE APP FOR MOBILE. The APP HEALTH section shows 'Your app is running.' with RESTART and STOP buttons. The ACTIVITY LOG shows recent events: started, stopped, and updated. The bottom of the screen shows a Windows taskbar with various application icons and a search bar.

Home Screen

The screenshot shows the home screen of the 'mongoapp1' application, accessed via the URL 'mongoapp1.mybluemix.net'. The page features a central navigation menu with the following options: Register, Login, Change Password, and Deactivate Account. The bottom of the screen shows a Windows taskbar with various application icons and a search bar.

Documents (aka Objects)

From the "Documents" tab you can browse for objects in this collection. All standard constructs are supported except for map/reduce queries. To use map/reduce, use the Mongo shell (note that temporary result collections are not supported in MongoLab).

You can also add, edit, and delete individual documents from here. Bulk collection updates are not supported in this UI (although they are supported in the shell).

Login:

The screenshot shows a web browser window with the address bar displaying `mongoapp1.mybluemix.net/login.html`. The page title is "BuRMA" and the main heading is "Login". Below the heading, there are two input fields: "Username" with the value "ganesh" and "Password" with masked characters ".....". A "Login" button is positioned below the password field. At the bottom left, there is a link "Login - Home". The browser's taskbar at the bottom shows several open applications, including "mongoapp1.zip", "cli-6.13.0.zip", "aselab92015.zip", "lab9ase.zip", and "cf-cli_6.13.0_winx64.zip". The system clock in the bottom right corner indicates the time is 12:56 AM on 11/6/2015.

Updated Fields in MongoDB:

The screenshot shows the MongoDB web interface in a browser. The address bar displays the URL: <https://mongolab.com/databases/aselab7/collections/login>. The page title is "Collection: login". Below the title, there are tabs for "Documents", "Indexes", "Stats", and "Tools". The "Documents" tab is active. In the top right corner, there is a sidebar titled "Documents (aka Objects)" with explanatory text. The main content area is titled "Documents" and includes buttons for "Delete all documents in collection" and "Add document". Below this, there is a search bar with the placeholder text "Start new search". The "All Documents" section shows the display mode set to "list" and a dropdown for "records / page" set to "10". Two documents are displayed in a list view, each with a JSON structure. The first document has fields: "_id", "\$oid", "name", "password", and "email". The second document has fields: "_id", "\$oid", and "name". At the bottom of the browser window, there is a taskbar with various application icons and a system tray showing the time as 1:09 AM on 11/6/2015.
